

9th Annual NM Men's Wellness Spring Retreat

April 23-25, 2010

An Exploration of Intimacy

Uwe Schroeter and Rees Bevan

Is it any wonder that for millions of men the only intimacy
is physical, silent, and predictable? *Phil Donahue*

The value of the personal relationship to all things is that it creates intimacy... and intimacy creates
understanding... and understanding creates love. *Anais Nin*

We cordially invite the men of New Mexico Men's Wellness to an exploration of spiritual, intellectual, emotional, physical and sexual intimacy. Please join us in sharing your wisdom, challenges, experience and thoughts on this topic in the gentle environment of the Hummingbird Music Camp. The Retreat will also allow time for the exploration of nature, reflection, conversation, meditation, music, and games. The accommodations at Hummingbird are simple but comfortable and meals are provided.

Please send in your registration form (see next page) as early as you can. Due to space limitations, we allowed for 25 participants, which will be registered on a first-come, first-served basis (with a waiting list beyond that).
